GENERAL MANAGER ADVICE

The implementation of a Food Organics Garden Organics (FOGO) service trial is identified as an action within Council's Waste and Resource Recovery Strategy, to determine the viability and potential benefits derived from introducing a FOGO service in the Cumberland area. In addition, the NSW State Government has recently released the NSW Waste and Sustainable Materials Strategy 2041, which includes mandating the separation of food and garden organics for households and selected businesses by 2030.
