2.1 LANDSCAPE CONCEPT PLAN

GRANVILLE PARK - PLAYSPACE CONCEPT PLAN

KEY ITEMS

Existing Features

- 1. Car park and kerbs retained
- 2. Foot paths and entry points retained
- 3. Security fence and log fence retained
- 4. Turf area retained and rectified
- 5. Shelter and seating to be improved
- 6. Sensory play area retained

Proposed Surface Treatment

- 7. Proposed shared path: 2.5m wide
- 8. Proposed foot path: 1.2m wide
- 9. Proposed stairs and ramp access to comply with AS2381
- 10. Proposed coloured concrete surface with feature bands and textures
- 11. Proposed play mulch softfall surface
- 12. Proposed rubber softfall surface
- 13. Proposed permeable hard surface

Proposed Furniture and Fixtures

- 14. BBQ and picnic table and seats
- 15. Park seats and shelter
- 16. Fixed umbrellas and table and seats
- 17. Shade sail structure
- 18. Security gate and fence: 1.2m high

Proposed Play Opportunities

- 19. Scooter track with painted artwork
- 20. Play tower
- 21. All-age play equipment
- 22. Nature and adventure play area
- 23. Wheelchair user frendly and innovative water play area
- 24. Steppers and informal nature play setting
- 25. Sensory and instrumental play items
- 26. Mound with rubber softfall surface, integrated garden bed, embankment climbing and sliding play opportunities
- 27. Swing set under existing tree canopies
- 28. Liberty swing with fencing

Proposed Amenities

- 29. Proposed amenities building and plant room
- 30. Outdoor pool showers

2.4 PLAY TYPOLOGY

GRANVILLE PARK - PLAYSPACE CONCEPT PLAN

The proposed play typology for the park embraces a diverse range of elements to cater to a wide spectrum of play preferences.

It encompasses traditional play equipment like rockers, slides, swings and trempolines for familiarity.

Adventure play areas offer embankment climbing, sliding items, fireman's poles, climbing walls, and a watch tower to encourage problemsolving.

Nature play zones foster environmental connection, while water play (including mist poles and light sprays), a scooter track highlighted with painted artworks, and a firetruck-themed multiplay unit engage various age groups.

Sensory and musical instruments enhance creativity and inclusiveness.

Informal natural play elements such as strategically placed recycled tree logs, sandstone rocks and carved animals offer unique encounters throughout the park.

This comprehensive approach ensures not only play diversity but also interconnectivity among various play elements, enhancing the overall park experience.
