

# Traffic and transport in Cumberland

Council is planning for excellent transport connections that drive a strong economy, support great centres, and provide easy access to jobs and communities for everyone.

Draft *Cumberland 2030: Our Local Strategic Planning Statement* considers the traffic and transport needs of our community and focuses on improving access throughout Cumberland.

## Our local priorities for access and movement

- Strengthening Cumberland’s position in the Central District through collaboration
- Advocate for a range of transport options that connect our town centres and employment hubs, both locally and to Greater Sydney
- Align local infrastructure delivery with planned growth
- Improving accessibility in our town centres

## Have your say

Draft *Cumberland 2030: Our Local Strategic Planning Statement* is on exhibition until 30 August 2019. Council invites you to tell us about your current travel and transport needs and changes you and others may like to see in the future. For more information and to provide your comments, please visit [haveyoursay.cumberland.nsw.gov.au](http://haveyoursay.cumberland.nsw.gov.au).
