

DELLWOOD STREETSCAPE UPGRADE  
CONCEPT DESIGN

SCALE 1:200 at A1

- 1. Feature concrete ground details to allow art/interpretation opportunities
- 2. Low walls provide seating opportunities and locations for art/interpretation and wayfinding
- 3. Tables, benches and seats provide a low-key gathering space for small groups
- 4. Existing planting beds embellished and trees retained with tree root control methods used to mitigate future uplift of pavement
- 5. Contemporary stone paving consistent with the paving installed as part of the toilet block project
- 6. Brick paving with feature banding to reflect the architectural style of the Dellwood Shopping Centre
- 7. Trees removed based on recommendation of a consulting arborist
